PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in data validation, reconciliation, SQL querying, Excel reporting, and dashboard development. Validated 5,000+ records across 8–10 databases as a Data Steward and built an interactive Power BI dashboard on 4,200+ patient records. Currently completing an Advanced Certification in Data Science & Analytics (Ethans Technical Institute with IIT Patna) and a B.Sc. in Computer Science.

SKILLS

Technical Skills

- SQL
- Tableau
- Microsoft Power BI
- Excel (Advanced Functions)
- Python (Pandas, sqlite3)
- Database Management Systems
- Dashboards & Reporting

Analytical Skills

- Data Profiling & Validation
- Data Reconciliation
- Data Cleaning & Preparation
- Exploratory Data Analysis
- Gap & Root-Cause Analysis
- Process & Business-Rule Modeling
- Error Correction & QA

Soft Skills

- Stakeholder Coordination
- Translating Business Needs into Reports
- Cross-functional Communication
- Business Acumen
- Report Writing
- Problem Solving

WORK EXPERIENCE

Intern | Nextgen Analytix, Pune | Sept 2026 – Dec 2026

- Developed a Bus Reservation System in Python (OOP), converting booking, scheduling, and seat-allocation business rules into structured, working logic.
- Built a Library Management System with a normalized MySQL database and Streamlit interface (see Projects).
- Completing the internship as part of the Ethans Technical Institute / IIT Patna certification program.

Data Steward (Data Quality & Reporting) | Durham Workforce Authority, Oshawa, ON | May 2024 – Aug 2024

- Validated 5,000+ records across 8–10 databases to support reporting accuracy.
- Identified and corrected approximately 12 data discrepancies per week.
- Collaborated with multiple departments to align a weekly Excel report with their reporting needs.

Landscaping & Food Service Roles | Ontario, Canada | 2009 – 2024

PROJECTS

Clinic Patient Analytics Dashboard | Power BI | 2026

- Built an interactive dashboard on 4,200+ patient records across 7 departments, featuring a KPI card, department and weekday breakdowns, a department-by-weekday matrix, and a daily trend line.
- Discovered that Thursday is the busiest day (631 patients) and Sunday the quietest (537), and that Neurology and General Physician together account for about 37% of patient volume.
- Modeled patient, doctor/department, and calendar data to enable cross-dimensional analysis.

Library Management System | Python, MySQL, Streamlit | Nextgen Analytix Internship | 2026

- Designed a normalized MySQL schema (books, members, book issues) with primary and foreign keys and CHECK constraints, and loaded sample data into all three tables.
- Wrote SQL reports using JOINs, GROUP BY, subqueries, and date functions to surface overdue books, the top 5 most borrowed titles, and late returns.
- Developed a Streamlit interface with Python-based CRUD operations and transactional issue/return logic.

EPL Match Data Database & Analysis | Python, SQLite | Self-directed | 2026

- Built a SQLite database from 2025–26 English Premier League match data using Python's sqlite3, structuring raw data into a queryable schema.
- Cleaned the data and wrote SQL queries to check data quality and prepare it for trend analysis and reporting.

Spam Email Classifier | Python, TensorFlow/Keras, NLP | 2026

- Built an end-to-end text classification workflow to label emails as spam or legitimate, covering data cleaning, tokenization, sequence padding, and train/validation/test splitting.
- Trained an LSTM neural network (embedding, LSTM, and dense output layers) and evaluated it using accuracy, precision, recall, F1 score, and a confusion matrix.

Tata Group Data Analytics Virtual Experience (Tata iQ, Financial Services) | Forage | July 2026

- Conducted exploratory data analysis with GenAI tools to assess data quality and flag risk indicators.
- Proposed a customer-delinquency risk model, taking the work from a business problem to an analytical recommendation.

EDUCATION & CERTIFICATIONS

Advanced Certification in Data Science and Analytics | Ethans Technical Institute with IIT Patna | Apr 2026 – Present

B.Sc. in Computer Science (In Progress) | University of the People | May 2026 – Apr 2027

Certifications: IBM Introduction to Inferential and Descriptive Statistics (May 2026) • HP LIFE Data Science and Analytics (June 2026) • IBM Data Analysis with Python (2025) • IBM Data Science Foundations – Level 2 (2025)

High School Diploma | The American School of Kinshasa | Aug 2004 – Jun 2009
